

Cooperating with Professionals in Your Community

Al-Anon cooperates with professionals in healthcare and social services as well as learning institutions, faith-based groups, public safety agencies, and civic organizations. The World Service Office (WSO) aims to raise awareness of the Al-Anon program at the national level. Members play a crucial role in making Al-Anon and Alateen known to professionals locally through public outreach. By sharing information and promoting goodwill, members enhance the WSO's cooperation with professionals, aligning our collective efforts to offer help and hope to those affected by alcoholism.
